PROJECTS

Devs4Good

devs4good.herokuapp.com

SKILLS

Agile Development	Adobe Photoshop	Javascript ES6
Test-Driven Development	Adobe Illustrator	Active Record
Pair Programming	Wordpress	PostgreSQL
Technical Writing	HTML5/CSS3	Ruby on Rails

- A platform for web developers can give back to the community by bringing non-profit visions to life. The project was designed and created in a week working with a team of 3 other Dev Bootcamp students for our final project.
- **Technologies used:** Ruby on Rails, Active Record/PostgreSQL, ProPublica Non-Profit API
- **Team Dynamics:** Agile project management, pair programming

Personal Portfolio

cassigallagher.com

- A personal portfolio built to showcase project work
- **Technologies used:** React, HTML5, CSS3
